

Anexo 6 Y 7 Salidas Educativas

Ana Isabel Albaina Martín, José Luis Aranda Medina

Compromisos de la evaluación educativa Antonio Bolívar Botía, 2002 Educación

Aprender y enseñar en educación infantil Eulàlia Bassedas i Ballús, Teresa Huguet Comelles, Isabel Solé Gallart, 1998-07-21 Aborda desde una perspectiva constructivista el proceso de enseñanza-aprendizaje de esta etapa educativa que abarca desde los primeros meses de vida hasta los seis años. Las autoras ponen de relieve las continuidades y también las especificidades y peculiaridades de los dos ciclos que componen la etapa. Desde esta doble perspectiva, se plantean los temas más relevantes para la práctica educativa: el fundamento psicopedagógico de la enseñanza y el aprendizaje, el currículum de la etapa, la organización y la planificación, la concreción en la práctica educativa, la evaluación, el trabajo en equipo de los maestros y los procesos de elaboración de proyectos compartidos, las relaciones entre el contexto familiar y el escolar... En conjunto, la obra pretende aportar ideas y orientaciones útiles para analizar y mejorar el trabajo docente a partir del diálogo entre la práctica cotidiana y los referentes teóricos.

La educación y el proceso autonómico. Volumen XV Ana Isabel Albaina Martín, José Luis Aranda Medina, 2001
Compilación de textos legales y jurisprudenciales, tanto de carácter estatal como autonómico, referidos al ámbito educativo, a partir de 1985 hasta la fecha.

Educación hoy, 1977

Mejora en los indicadores del ISCE en instituciones de educación pública a partir de la integración de la norma ISO9001:2015 y el modelo de gestión EFQM Alexander Parody Muñoz,Jairo Bolaño Perea-é,Éberto González Orozco,Vera Santiago Martínez,

El aprendizaje servicio como metodología educativa y social. José A. Rabadán Rubio,Juan Benito Martínez,Arianna Giorgi,2022-09-30 El uso del Aprendizaje Servicio ha ido ganando terreno en el ámbito educativo por el que han transitado, esencialmente, educadores y pedagogos durante los últimos años, promoviendo la inclinación a la imbricación de diversas metodologías activas e interdisciplinariidades. Ambos han hallado en esta nueva forma de enseñanza una práctica que, centrada en el estudiante, responde a una realidad educativa donde no solo se fomenta el diálogo con los educadores, sino que se conjugan las necesidades sociales con las necesidades curriculares. El ApS ha sido indirectamente propuesto por Jacques Delors (1996, p. 34) quien invitaba al profesorado a buscar alternativas y propuestas metodológicas más activas y participativas, partiendo de la base de que los aprendizajes del alumnado debían promover los cuatro pilares básicos para la educación para el siglo XXI: el aprender a conocer, aprender a hacer, aprender a ser, pero también aprender a vivir juntos, aprender a vivir con los demás. La mayoría de los trabajos aquí reunidos fueron presentados en las I Jornadas Regionales del ApS de la Región de Murcia, que se organizaron en el mes de noviembre de 2021 con la ayuda del Grupo Promotor del Aprendizaje Servicio de la Región de Murcia, el Grupo de Innovación Docente INNOVA-Q de la Universidad de Murcia y el Ayuntamiento de Las Torres de Cotillas (Murcia), con el objetivo de hacer el estado de la cuestión sobre esta propuesta educativa constructiva y autodirigida, volcada en contextualizar el aprendizaje en el marco de las necesidades y problemáticas actuales. Este encuentro supuso un punto de partida para esta práctica pedagógica o, al menos, un señuelo para despertar el interés público por un cambio significativo en las aulas y las administraciones públicas.

Enseñar y aprender geografía para un mundo sostenible Jesús Granados Sánchez,Rosa María Medir Huerta,2021-12-01 Este libro quiere ser una contribución al marco de la educación para el desarrollo sostenible (EDS) para el 2030. Su principal objetivo consiste en presentar reflexiones y propuestas innovadoras en el campo de la didáctica de la

geografía y la EDS, con la finalidad de avanzar en la mejora de los contenidos y en la manera como aprenden nuestros alumnos competencias geográficas y de EDS, de modo que ayuden a la transformación de la realidad y a la creación de un mundo más sostenible. La obra se estructura a partir de tres grandes secciones. La primera parte aborda la sostenibilización curricular en diferentes niveles educativos, es decir, se reflexiona sobre cómo introducir los contenidos, los valores y las competencias propios de la EDS en la enseñanza de la geografía. La sección reúne experiencias y propuestas innovadoras en didáctica de la geografía que facilitan la consecución de los objetivos de desarrollo sostenible. La segunda parte del libro se centra en el papel de la geografía en la construcción de una ciudadanía global sostenible y en ella se esbozan las competencias y los principios básicos. La tercera y última parte trata la didáctica del paisaje sostenible. El paisaje es un concepto e instrumento didáctico interdisciplinar que permite visualizar la forma que adquiere la sostenibilidad en distintos contextos geográficos. La sección presenta propuestas didácticas centradas en el trabajo por proyectos, los itinerarios didácticos por espacios naturales y el análisis de problemáticas ambientales localizadas en lugares concretos. La educación en paisaje sostenible es una educación para el futuro que es integradora, propositiva y creativa, y que promueve la identificación, el análisis, la evaluación de alternativas y la creación de paisajes sostenibles.

Necesidades esenciales en México: Educación, 1982 Discute en especial el presente y el futuro de la educación básica en México. Plantea la necesidad y la dirección de los cambios a realizar si se pretende impartir ese nivel educativo a todos los mexicanos. Analiza el cómo y el porqué, año con año, abandonan las aulas millares de niños y jóvenes que no volverán a tener la oportunidad de educarse y, por medio de ese análisis, ofrece un perfil claro del funcionamiento del sistema educativo en sus niveles de educación primaria y secundaria.

Cómo hacer una evaluación de centros educativos José Ma Ruiz, 2023-05-15 Libro muy práctico que ayuda a planificar y diseñar la evaluación en los Centros. Ofrece once modelos de evaluación: siete de evaluación interna y cuatro de evaluación externa. Cada uno de ellos parte de un breve planteamiento teórico y describe después su aplicación pormenorizada en un centro real, para concluir con un anexo en el que se presentan todos los instrumentos empleados: radiografías de centros, cuestionarios, modelos de informes y de pautas para entrevistas, listas de control, escalas de evaluación, informes finales, etc.

La Educación y el proceso autonómico, 2002 Compilación de textos legales y jurisprudenciales, tanto de carácter estatal como autonómico, referidos al ámbito educativo, a partir de 1985 hasta la fecha.

Revisión de Políticas Nacionales de Educación Educación en Chile OECD, 2018-01-04 En 2004, la OCDE realizó una revisión de las políticas nacionales de educación y un análisis del sistema educativo de Chile. El objetivo de la presente revisión es identificar los cambios clave en el sistema educativo chileno, principalmente entre 2004 y 2016, con el fin de analizar la ...

Panorama de la Educación 2018. Indicadores de la OCDE. Informe español , Esta publicación se corresponde con el informe español de la edición internacional. Se denomina Panorama de la Educación 2018: Indicadores de la OCDE. Informe español y reproduce los datos de los indicadores más importantes para España en comparación con la media de los países de la OCDE y de los 22 países de la Unión Europea que pertenecen a esta Organización. Además, en la mayoría de los indicadores, se ofrece información, cuando está disponible, de una serie de países, seleccionados por el interés en la comparación con España. Estos países son los siguientes: Francia, Grecia, Italia y Portugal (mediterráneos), Alemania y Países Bajos (centroeuropeos), Finlandia, Noruega y Suecia (nórdicos), Brasil, Chile y México (latinoamericanos), Estados Unidos, Irlanda y Reino Unido (anglosajones) y Japón (asiático). La simplificación de las tablas y cuadros pretende facilitar la lectura y resaltar lo más relevante desde la perspectiva española.
